

# Ensuring Patients Receive Efficient Continuity of Care

# ACES

At ACES, we value two-way collaboration with our trusted community optometrists, ensuring they receive the essential and critical eye care they require in a timely manner.

## Co-Management Partnership

**Becoming a co-management partner of ACES offers many benefits:**

- Your patients are your patients! Partnering with ACES will mean critical optometry care and surgery is available as and when your patient needs it, without waiting on lengthy NHS waiting lists.
- Extremely high patient satisfaction and outcomes helping you to maintain a loyal and happy relationship with your patients following their surgery at ACES.
- Consistent communications provide you with feedback regarding your patients throughout their treatment journey with ACES, with their final destination being back in your primary care.

If you would like to hear more about how we can work in partnership together, register for the ACES Co-Management Partnership scheme, by contacting our expert NHS Partnership Team:
