

## NHS Services We Provide

Pre-op & Post-op  
Cataract Care

Cataract  
Surgery

General  
Ophthalmology

Glaucoma

YAG Laser  
Treatment

### How to Refer

We accept NHS referrals via the following routes:

#### North Hampshire, West Hampshire & East Hampshire

##### Cataract Surgery

- Optometrist and GP referrals are made via SPOA.

##### General Ophthalmology & Glaucoma

- Optometrist referrals are made via the local EeRS platform OPERA which integrates directly with the NHS e-RS system.

For GPs, we are listed on the NHS e-Referral Service as **ACES SOUTHAMPTON**. Please note, GPs cannot refer unless the patient has recently had a sight test.

##### Further information can be found via the Hampshire LOC website:

[loc-online.co.uk/hampshire-loc](http://loc-online.co.uk/hampshire-loc)

### Post-Operative Assessment

All patients should be advised to book an appointment with their optometrist for a post-operative check-up approximately **4 weeks** after surgery.

The optometrist will complete a post-op feedback form with updates on the patient's eye health and any further next steps that they would recommend. This can be submitted via the Primary Eyecare Services (PES) platform, OPERA, or our ACES Co-Management Partner Portal in areas where PES isn't available.

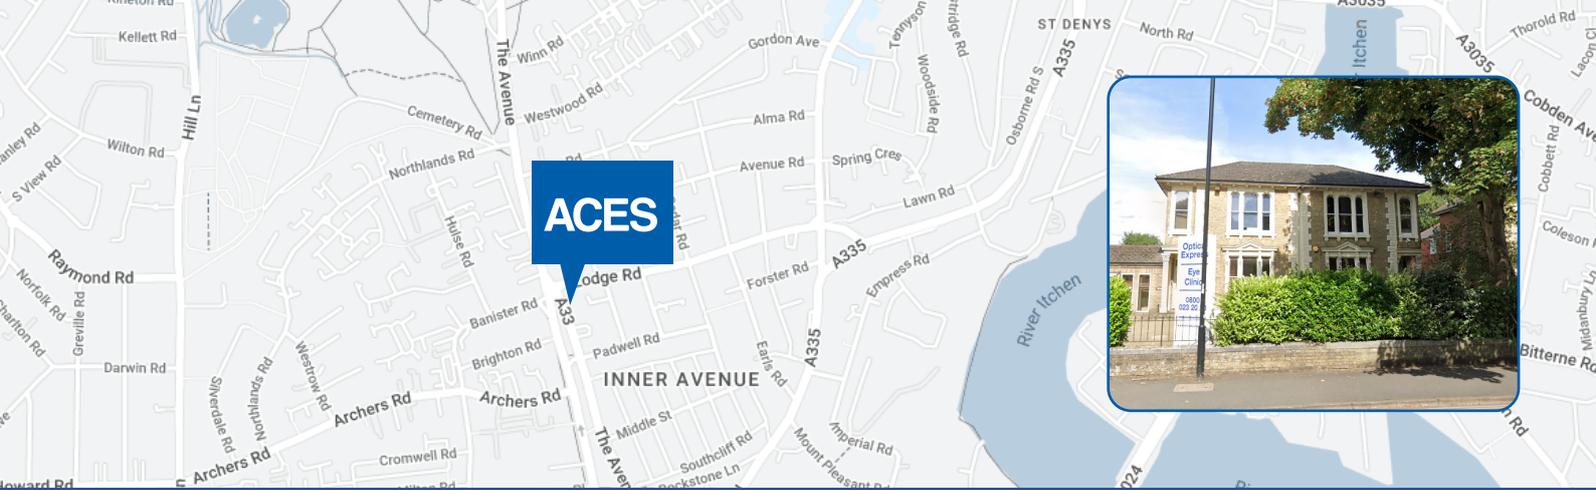

- If you are already registered onto our Partner Portal, you can submit your post-operative feedback form here:  
[partner.aces-eyeclinic.co.uk/login](http://partner.aces-eyeclinic.co.uk/login)
- If you haven't yet registered your practice details onto our Partner Portal, you can sign up here:  
[partner.aces-eyeclinic.co.uk/aces-practice-registration](http://partner.aces-eyeclinic.co.uk/aces-practice-registration)

### Referral Criteria

- Ocular Co-Morbidities – ocular condition under management (e.g. glaucoma, treated diabetic retinopathy) the provider must contact the managing ophthalmologist for that condition to ensure that the condition is stable, surgery can go ahead without compromising the service user clinical outcome, they can exclude any requirements for extra procedures which might mean surgery is only suitable for the managing ophthalmologist for that condition to undertake, or to arrange follow up for their comorbid eye condition.

### Exclusion Criteria

- Under 18s.
- Service Users under the care of another provider for ocular co-morbidity where the managing consultant identifies clinically inappropriate for cataract surgery elsewhere.

**Southampton: 36-38 The Avenue, Southampton SO17 1XN**

## Directions

ACES Southampton is located on The Avenue in Southampton, roughly 1 mile north of the city centre and south of The Common. It offers laser eye surgery, as well as eye examinations, sunglasses and contact lenses. The clinic is easily accessible from the M3, exit at junction 14 and follow the signs for the city centre (A33). Continue straight ahead past The Common and the road will split and become The Avenue. The clinic is found across from the Travelodge. When on foot, main entrance is located next to RM Legal Solicitors - main entrance to building is shared with the solicitors.

### Parking

Parking spaces are available on site at the rear of the building via Oxford Road. To access the gated car park you must press the upwards arrow on the control panel so that we can buzz you in. There is Free of charge car park at the rear of the building - post code is on Oxford Road: SO14 6QW

### By Train

Southampton Central and St. Denys station are both within walking distances to the clinic. Southampton Central runs routes east towards Portsmouth, north to Winchester, the Midlands and London, and westwards to Bournemouth, Poole, Dorchester, Weymouth, Salisbury, Bristol and Cardiff. St Denys train station runs local routes to Swaythling, Millbrook, Redbridge, Bitterne, Sholing and Woolston.

### By Bus

The clinic is well served by the local bus routes, there is a bus stop immediately outside the clinic on The Avenue and around the corner on Lodge Road.
