How to Refer

We accept NHS referrals via the following routes:

Greater Manchester ICB

Cataract Surgery

- Optometrist referrals are made via the local EeRS platform OPERA which integrates directly with the NHS e-RS system.

For GPs, we are listed on the NHS e-Referral Service as **ACES MANCHESTER**. Please note, GPs cannot refer unless the patient has recently had a sight test.

Further information can be found via the Greater Manchester LOC website:

www.gmlocs.co.uk

Post-Operative Assessment

All patients should be advised to book an appointment with their optometrist for a post-operative check-up approximately **4 weeks** after surgery.

The optometrist will complete a post-op feedback form with updates on the patient's eye health and any further next steps that they would recommend. This can be submitted via the Primary Eyecare Services (PES) platform, OPERA, or our ACES Co-Management Partner Portal in areas where PES isn't available.

- If you are already registered onto our Partner Portal, you can submit your post-operative feedback form here:
